

Outdoor use

Model 53

**Use**

Model 53 is a sliding pass-through that comes ready for installation.

The unit is frequently used for physical access supervision in indoor areas and covered outdoor areas such as car parks, gatehouses, government buildings and company gates. FB4 firearm certification comes as standard. Fire protection to F90 available on request.

Safety and features

- Sliding pass-through for pedestrians, fits flush with outside façade.
- Manual operation drawer.
- Locks automatically in both end positions. Lock can only be released by the operator behind the counter by using the lever.
- It is not possible to reach through the hole when the drawer is extended or manipulate the mechanism.
- For handing over passes, files etc up to DIN A4.
- Dust and draught sealed.
- Materials offer firearms protection, capable of withstanding heavy handgun fire, e.g. up to 44 Magnum. Has received FB4 certification from the firearms licensing authority.
- Model 53 fulfils German UVV regulations.

**Materials and use**

- Pass-through is made of galvanised sheet steel.
- Fascia is made out of 1mm thick brushed stainless steel, drawer 1.5 mm thick, casing, cover and lid 2 mm thick. Body is made of galvanised sheet steel with a black-brown powder coating (RAL 8022).
- All metal parts have been produced using state-of-the-art precision laser cutting technology for ultimate quality.
- Model 53 is suitable for indoor and outdoor use in covered areas.
- The unit requires no maintenance. No need for cleaning or lubrication.

Outdoor use

Model 53

Installation and dimensions

The unit comes ready for mounting in prepared walls/façade recesses or in a suitable window unit (e.g. Model 7053 or 7553). Coming from the outside, it is mounted by inserting into the recess before screwing tight underneath the unit on the inside. Consideration must be given to access requirements and the possible need to remove the unit later in the unlikely event of repairs. The unit is very compact and suitable for use in areas with limited space.

Outer dimensions

(all measurements in mm)

Pass-through

Width 420
