

Money trolley and case hatches

Model 100 H/E

order no. H: 400039 E: 400042

Use

Model 100 is a tamperproof case hatch which can be installed in indoor and outdoor counters. It is ideal for use in central banks, supermarkets and other facilities where large amounts of money or valuables are handed over in cases or similar containers.

The unit conforms to firearms protection class FB4 (with certificate)

Safety and features

- Case hatch with alternately opening doors for mounting in a counter.
- Doors activated manually in the standard 100 H version and automatically via control panel in the 100 E version. Security system ensures only one door opened at a time. Doors are mechanically locked and cannot be manipulated. In the event of a power cut, the unit automatically switches to manual control in the 100 E version.
- Doors slide into housing.
- Materials offer firearms protection, capable of withstanding heavy handgun fire. Has received FB4 certification from the firearms licensing authority.
- Model 100 fulfils German UVV regulations.

In Model 7120, Model 100 can be combined with Model 20 or Model 20 spät

Material and use

- Case hatch is made of steel plating, interior walls are reinforced with stainless steel.
- Well-sealed against dust and draughts.
- All metal parts have been produced using state-of-the-art precision laser cutting technology for ultimate quality.
- The unit requires no maintenance. No need for cleaning or lubrication.

Hight H1	$H + 150$

Weight

200 kg

Miscellaneous

- Model 100 is also available in higher firearms protection classes up to FB6.
- Special sizes available on request.
Coatings available in alternative RAL colours on request.

Installation and dimensions

The model 100 H/E can be mounted under a counter or window element (e.g. Model 7020).

The model 100 E comes complete with power cables and is ready for mounting in an existing counter.

There should be a 230 V socket near the counter on the inner side.

Consideration must be given to access requirements and the possible need to remove the unit later in the unlikely event of repairs.
